Summary: Chloe asks about Paris to Marinette

Paris Motif

Marinette was reading a book when she was approached by Chloe. "Hey, Marinette, we're in France, Paris, right?" asked the girl, much to Marinette's annoyance. "The place known as the city of live?"

"I'm pretty sure we are," answered a sarcastic Marinette.

"Then why doesn't everything have a love motif?"

Marinette, either at disbelief or exasperation at the question, closed her book, got up and walked away, with Chloe following her. "Come on, give me an answer!"

"Your question doesn't deserve an answer!"
